

PLANS TO SMOKE OUT THE COLONEL

President May Force Roosevelt to Break Silence.

TAFT'S CHANCES ARE BRIGHTER

Aggressive Attitude Assumed by the Chief Executive in His Ohio Addresses Has Inspired His Organization With a Fighting Spirit—Senator La Follette Is Fatigued and Will Take a Much Needed Rest.

Washington, Feb. 5.—The strengthening of President Taft's chances for renomination and the aggressive attitude assumed by the president in his speeches in Ohio, which has inspired his organization with a fighting spirit, has created a critical situation in national Republican politics.

One of the results that is expected to flow from this condition is the "smoking out" of Colonel Roosevelt. It is admitted by his friends that he cannot longer remain in a doubtful attitude.

He must either by written word or sign let it be known that he is willing to lead the opposition to President Taft's renomination or stand aside and let some other man lead and if Colonel Roosevelt does put aside the leadership of the anti-Taft movement it is expected that Senator Cummins will take it up. The senator from Iowa is already in the field with the prospect of procuring all or nearly all of the Iowa delegation.

A canvass of the progressives in congress revealed the fact that some of the former supporters of La Follette are turning to Cummins. Many of them would be willing to turn to Roosevelt if they felt certain that he would make the fight and continue in it up until the convention meets.

Senator La Follette, it was learned, is not in as serious a condition as some of his friends feared when they gathered at the progressive headquarters and issued a bulletin. The senator, with other members of his family, spent most of the day at Providence hospital at the bedside of his daughter Mary, thirteen years old, who is recovering from an operation.

La Follette Is Worn Out. The fact is not denied that Senator La Follette is thoroughly worn out physically and in no condition to continue the political activity that he has been engaged in for several weeks. His physician has assured the family that his recovery will come with a few weeks' rest from his arduous work and it is understood that the senator has consented to accept the doctor's advice and take the rest.

The progressive Republicans in Washington are generally very much depressed. They concede that if the renomination of President Taft is to be prevented something must be done at once and a national organization formed with authority centralized in Washington or in some other political center with a national chairman and his staff. No steps have been taken yet to form such an organization, but it is likely that this matter will be decided within ten days.

Local organizations favorable to Roosevelt are forming in many places but each is proceeding under its own steam and there is a lack of centralized leadership or a directing head. The pilgrimages to Colonel Roosevelt continue.

It is learned in Washington that many men of national prominence have been quietly conferring with the colonel at the Outlook office or elsewhere in New York and getting away without their identity becoming publicly known or the newspapers noting the fact.

It is significant that none of these men has come away with any other impression than that Colonel Roosevelt was ready to accept the nomination if his friends could deliver it to him in the proper way.

LA FOLLETTE NEAR COLLAPSE

Wisconsin Senator Cancels All His Speaking Engagements.

Washington, Feb. 5.—Senator Robert M. La Follette, on the verge of a physical breakdown, has canceled all his speaking engagements for the next two weeks, at Trenton, Jersey City and elsewhere, and will seek a complete rest. He has decided to drop entirely all his work for a fortnight.

FINE HELENA HOTEL BURNS

Fire Which Threatened Business District Causes \$125,000 Loss.

Helena, Mont., Feb. 5.—Fire almost completely destroyed the Helena hotel and for a time threatened the entire business district. The fire originated in the boiler room and spread to the top stories through the elevator shaft. It was with difficulty that several persons who were asleep in the building were rescued.

The hotel was owned by Henry S. Barth of this city. The estimated loss is \$125,000. The hotel was for years one of the leading hotels of the state.

Noted Priest Is Dead.

Kingston, N. Y., Feb. 5.—Monsignor Richard Lalor Burtel, a noted Catholic priest and pastor of St. Mary's church in Rondout, died of pneumonia at the Benedictine sanitarium. He was seventy-two years old.

HOLDING TROOPS READY FOR DUTY

General Wood Issues Orders to Several Army Posts.

SERVICE ON MEXICAN BORDER

Unsettled Condition in Northern Part of Neighboring Republic Causes American Chief of Staff to Prepare to Dispatch Troops on Short Notice. Mexican Government Preparing to Use Drastic Measures to Crush Revolt.

Washington, Feb. 5.—Because of the unsettled condition in North Mexico, General Leonard A. Wood, chief of staff of the United States army, issued orders to commanders of several army posts throughout the country to hold their troops in readiness for duty along the border.

General Duncan, in command of the department of Texas, was instructed "to use his own judgment" in moving the troops under him in enforcing neutrality laws or strengthening the various garrisons along the international line.

PLANS DRASTIC MEASURES

Mexican Government Preparing to Crush Rebellion.

Mexico City, Feb. 5.—Drastic measures are to be taken against the revolutionists who are disturbing the peace of Mexico, according to a member of President Madero's cabinet in a statement issued. Deportation, prohibition of street oratory, suppression of undesired publications, imprisonment of agitators and a vigorous military campaign against the revolutionists in arms are said to comprise the program.

Preparations for the promised severities have been going on secretly, it is said, in order not to disturb the public mind or give warning to the malcontents. Now, however, the arrangements have been completed and the war against the armed revolutionists will be carried on in the style of former President Diaz.

WILL ESTABLISH REPUBLIC

Dowager Empress of China Issues Important Edict.

Peking, Feb. 5.—The empress dowager issued an edict instructing Premier Yuan Shi Kai to establish a republic in co-operation with the Southern republicans. The edict has not yet been published and it is expected that it will be kept more or less secret so far as the public is concerned until arrangements in the South have been completed.

Yuan Shi Kai is now endeavoring to persuade the Nanking government to hand over the control of affairs to enable him to carry on the administration of the whole empire until the national convention appoints a permanent government and adopts a constitution.

GOETHALS FOR CANAL TOLLS

Builder of Panama Waterways Opposes Free Shipping.

New York, Feb. 5.—Colonel George W. Goethals, chief engineer in charge of the building of the Panama canal and chairman of the isthmian canal commission, who arrived here on the steamer Cristobal from Colon, reiterated his belief that the canal would be opened Jan. 1, 1915.

Colonel Goethals said he was in favor of tolls for shipping through the canal and intimated that he would bring this matter to the attention of the president. He went at once to Washington.

RUSSIANS DIE AT TABRIZ

Officer and Fifteen Men Killed by Explosion of Shell.

Tabriz, Persia, Feb. 5.—A Russian officer and fifteen men belonging to the Russian guard stationed here were killed and seven other soldiers were wounded by the explosion of a shell which a Persian citizen was delivering at the citadel in pursuance of the recent order that the inhabitants of the city were to surrender all arms and ammunition in their possession.

Carnegie a Taft Supporter.

New York, Feb. 5.—Andrew Carnegie declined an invitation by telegraph to address the Roosevelt state mass convention at Oklahoma City next Saturday. In his reply Mr. Carnegie declared he was an out and out supporter of President Taft.

Darrow Pleads Not Guilty.

Los Angeles, Cal., Feb. 5.—Clarence Darrow entered pleas of not guilty before Presiding Judge Hutton to two indictments charging him with bribery. The trial date will be fixed on Feb. 14.

Eight Buildings Burned.

Morristown, S. D., Feb. 5.—Fire which started in the Miner Land company office burned eight buildings and caused a loss of \$60,000.

MISS ANNIE PECK.

Noted Mountain Climber Returns From South America.

Photo by American Press Association.

COROPUNA NOT THE HIGHEST

Miss Peck Says Huascarán Loftiest South American Peak.

New York, Feb. 5.—Miss Annie E. Peck, the noted mountain climber, returned to this country from a visit of several months to South America, during which, last July, she made the first ascent of Mount Coropuna, accompanied only by one guide and a few natives. Coropuna was supposed by some to be the highest mountain in South America, but Miss Peck says she found it short of the height of Mount Huascarán, which she ascended in 1908.

GREAT NIAGARA ICE BRIDGE COLLAPSES

Three Persons Swept Away on Winter Wonder.

Niagara Falls, N. Y., Feb. 5.—The great ice bridge that has choked the river channel between the cataract and the upper bridge broke just at noon and went down the river, taking with it to their death a man and woman believed to be Mr. and Mrs. Eldridge Stanton of Toronto, and Burrell Heacock, seventeen years old, of Cleveland, O. Four other persons were on the ice at the time, but managed to get ashore in safety.

The bridge was considered perfectly safe. For weeks the great fields of ice had been coming down the river, piling up against the barrier until it was from sixty to eighty feet thick, and under the influence of zero weather the great mass had become firmly anchored to the shore. The jam in some places was a quarter of a mile in breadth.

For two weeks it had offered safe passage to the hardy and an immense crowd of excursionists came to view the winter wonder of the river. Had the accident happened an hour later in the day hundreds would have lost their lives, for the crowd was moving into Prospect park in the elevators that run down the cliff for the purpose of venturing out upon the ice.

CHOOSE DELEGATES FEB. 22

Oklahoma Democrats Will Hold State Convention.

Washington, Feb. 5.—The first definite test of strength in the contest for the Democratic presidential nomination will come in Oklahoma on Feb. 22 when the Democrats of that state will assemble in state convention and name their national delegates. A hard fight is now on for control of the state, for the supporters of the various candidates for the presidency recognize the fact that a band wagon movement may be started or checked as a result of the stand taken by the Oklahoma convention.

Governor Woodrow Wilson's campaign managers have been asserting Oklahoma was long since nailed down for their candidate.

NEWS IN SUNDAY'S PAPERS

Wisconsin Democrats decide to elect delegates to national convention at state primaries.

Woodmen of Illinois and Kansas likely to secede owing to recent insurance rate increase.

Assistant Attorney General W. T. Denison declares chief cause of ineffectiveness of criminal law is politics.

Representative Stevens of Minnesota in first authentic statement concerning attitude of committee on canal legislation opposes free tolls.

Big Fire in Philadelphia.

Philadelphia, Feb. 5.—Fire destroyed three large factory buildings, causing a loss of more than a million dollars. The principal loser was the Hensel-Colladay company, manufacturers of millinery and dress trimmings. Both its buildings were completely destroyed, with an estimated loss of \$800,000.

BAILEY OPPOSES CHILD BUREAU

Says States Have Been Eribled to Surrender Powers.

OLLIE JAMES HAS A BOOM

Another Candidate Afraid of Letting Kentuckian Nominate Him—Federal Aid For Teaching Agriculture—Bryan Jokes About a New Ratio—To Buy Panama Canal Machinery.

By ARTHUR W. DUNN. Washington, Feb. 5.—[Special.]—"It is the worst curse of American politics today that the federal government has absolutely bribed the states to surrender many of their powers."

That was a remark made by Senator Bailey of Texas in opposing a bill to create a children's bureau in the department of commerce and labor for the purpose of gathering information to be used later, as was frankly stated, in bringing pressure to bear on the state legislatures to enact better child labor laws.

Ollie James, Very Dark Horse. It is related that a Democratic presidential candidate was approached by Ollie James, senator elect from Kentucky, with an offer to place him in nomination for president.

"No, you don't," said the candidate. "I remember that Garfield placed John Sherman in nomination for president in 1880, and he spoke one word for Sherman and two for Garfield, and Garfield was nominated. I am not going to allow history to repeat itself at my expense."

Another Parallel. When Garfield was nominated for president he was a member of the house and senator elect. He would have taken his seat in the senate the day he was inaugurated president if he had not been chosen for the higher office. Ollie James is a member of the house and is elected to the senate. He will take his seat in the senate when the next president is inaugurated unless Ollie himself is elected president.

Teaching Agriculture. Following the precedent set by the late Senator Dolliver of Iowa, Senator Page of Vermont is an enthusiast for the enactment of a bill to give federal aid to the teaching of agriculture in high schools. As a member of the senate committee on agriculture Senator Page is in a position to give active support to bills of this character, of which there are a number now pending in congress.

Senator Page in discussing the matter said that, while he followed Senator Dolliver in his interest in such a measure, it was not a new proposition to him, for a former senator from Vermont, Senator Morrill, was an ardent supporter of it, and the present Vermont senator long ago believed that it was a worthy measure. He is devoting much attention to the subject.

There is a growing sentiment, apparently, in favor of the passage of such a bill. The influence of the department of agriculture is exerted in its favor, and Assistant Secretary Hays has spent much thought and study in developing certain phases of it. Most educators throughout the country believe in it, and the American Federation of Labor is pushing it on the theory that if it goes through and the proportion of men and women in this country who can use their hands as well as their brains is increased the position of labor will be much strengthened.

Bryan's 5 to 1 Ratio. Instead of 16 to 1, W. J. Bryan has a new ratio. "I was standing beside Bryan while a hall was being filled with more than 5,000 people," said one of his admirers. "It must be a grand thing to attract people as you do, Mr. Bryan," I said. "Yes," he replied, "but if there was a ballot box at the door and each dropped a vote in it as he came in only about one in every five would vote for me."

Breeding Grounds For Birds.

Three new national bird reservations have been created recently and placed under the charge of the agricultural department. Two are known as the Hazy Island and the Forester Island reserves, located on islands in the Tongass national forest, in southern Alaska. They have been set aside for the breeding ground of the rhinoceros auklet.

The third is in Nebraska, on the site of the recently abandoned ground of old Fort Niobrara, not far from the South Dakota line. It contains about 14,000 acres in the heart of the prairie chicken country and will furnish a refuge for this fast disappearing game.

Panama Canal Machinery.

Senator Fletcher of Florida, president of the southern commercial congress, has called a meeting at Nashville, Tenn., of the men interested in the waterway movement, at which he will urge that the millions of dollars' worth of high class machinery and equipment soon to be put out of use on the Panama canal be purchased for the development of the inland waterways of the country.

He points out in his call that this machinery may suffer the fate of the old French equipment or be sold at useless sacrifice unless the waterway men take advantage of their approaching opportunity.

Mediterranean's Size.

The Mediterranean sea if placed across North America would make sea navigation from San Diego to Baltimore.

TANG SHAO YI.

QUESTION OF CAPITAL ISSUE

Chinese Republicans Insist It Must Be Nanking.

Nanking, Feb. 5.—The simultaneous announcement that Yuan Shi Kai has received permission from the throne to organize a republic in the North in conjunction with the Southern government, the arrival at Nanking of Wu Ting Fang, the republican minister of justice, and Tang Shao Yi, the representative of the imperial premier, and the extension of the armistice for one week indicate the approaching end of the present stage of indecision.

The last stage of the peace negotiations involves the question of the capital, which the republicans assert must be Nanking, as the South would never consent to Peking.

TWO HOUSE CAUCUSES OCCUR THIS WEEK

Republicans and Democrats Will Hold Separate Sessions.

Washington, Feb. 5.—Tariff revision work in committees of the house and senate, a renewed attempt to fix a date for action on the pending arbitration treaties with Great Britain and France and a house caucus Wednesday night on the controversy between house leaders over the proposed investigation of the so called money trust will enliven congress this week.

House Republicans will caucus to ratify the selections which the various state delegations in congress have made for the representative of each state on the Republican congressional committee. This committee will have charge of the party's general work in the next congressional campaign.

The senate committee on finance will begin active consideration of tariff matters Tuesday, when the first of a long series of hearings on the house steel revision bill will be held. Manufacturing interests which have manifested their opposition to the reductions, averaging 35 per cent from the present law, have arranged to be represented.

Ample opportunity will be allowed for the appearance of all interested in the proposed revision. Some Republican leaders have figured Feb. 20 as an approximate date when the committee should be able to close the hearings and proceed to consider its report to the senate.

PASTOR RAPS CONGREGATION

Des Moines Minister Says Work Brings Persecutions.

Des Moines, Feb. 5.—Declaring that he had been persecuted by members of his church because of his work among the poor of the city Rev. Robert H. Bell, rector of the St. Paul Episcopal church, one of the most fashionable churches in the city, read his resignation as pastor of that parish, effective June 30.

"I refuse to longer submit to the abuse that has been heaped upon me during the past few weeks," said Rev. Mr. Bell. "All the animosity is due to my broad views of Christianity and my attempts to make the Episcopal church stand for something. My congregation objects to my work in social service. I shall always continue this work."

RIDDLE BODY WITH BULLETS

Mob at Macon, Ga., Takes Girl's As-sault From Guards.

Macon, Ga., Feb. 5.—Charles Powell, a negro, who assaulted and robbed a young white woman here, was lynched. Previously county officers had sought to prevent the lynching and had removed Powell from the jail, about which the mob had gathered. Powell gone the would be lynchers were admitted. Then followed a man hunt in which all outgoing trains were watched. Members of the mob used automobiles and came up with the negro and his two guards in the yards of the Georgia Southern at a Florida railroad. He was tied to a telegraph pole and hundreds of bullets fired into his body.

ICE JAM SWEEPS BOATS SEAWARD

WIRELESS SAVES THE CREW

Distress Signals Bring Prompt Aid to British Steamer.

Norfolk, Va., Feb. 5.—The British steamer Consols, cotton barge from Galveston for Hamburg, flame swept in a long futile race for port, and forty miles south of Cape Henric, the crew of thirty-four men, refugees on the British steamer Castle Eden, were landed at Newport News.

It was another triumph for inter-communication among ocean craft, for the Castle Eden, headed from Savannah for Danish ports, picked up the wireless call for help from the imperiled crew on the Consols and rushed to her assistance.

INVENTOR LEAPS TO DEATH

Tailor Testing Parachute Cape Falls Before Horrified Crowd.

Paris, Feb. 5.—An Austrian tailor named Reichelt was killed while testing an automatic parachute cape for the use of aviators invented by himself. Reichelt was authorized by the police to carry out tests with a dummy from a stage on Eiffel tower. Having absolute faith, however, Reichelt secretly determined to dispense with the dummy and try the experiment in person.

He donned the garment and leaped into space. The cape failed to open and Reichelt dropped like a stone. Hardly a bone in his body was left unbroken.

ITALIAN TRANSPORTS SINK

Constantinople Dispatch Says Three Vessels Have Foundered.

London, Feb. 5.—A Constantinople dispatch to the Daily Chronicle says it is officially announced that three Italian transports have foundered off Susa Taormina and Tobruk. No confirmation of this report has been received in London from other sources.

Connors Jury Disagrees.

Los Angeles, Feb. 5.—The jury in the case of Bert H. Connors, accused of having attempted to destroy the hall of records with dynamite, reported to Judge Willis that it was unable to agree and was discharged. It stood 10 to 2 for acquittal.

Gold Brick Man Caught.

Napoleonville, La., Feb. 5.—A stranger answering the description of C. V. Caddigan, alias John Armstrong, alias Thomas Moore, alias Joe Daniels, was arrested here. He is believed to be wanted in Minneapolis on the charge of grand larceny for the sale of a gold brick for \$25,000.

Mrs. Hazzard Found Guilty.

Seattle, Feb. 5.—The jury in the case of Mrs. Linda Burfield Hazzard, accused of having starved to death Miss Claire Williamson, a wealthy English patient, at the Hazzard "starvation sanatorium," returned a verdict of manslaughter. The jury was out more than twenty hours.

A Pardonable Paradox.

"That young son-in-law of mine," said Mr. Cumrox, "says I'm unreasonable. And maybe he's right." "What's the trouble?" "Before their marriage I objected to his attentions to my daughter. Now I'm objecting to his inattention."—Washington Star.

Minneapolis, Feb. 3.—Wheat—May, \$1.07½; July, \$1.08½ to 1.08½. Cash close on track: No. 1 hard, \$1.08½; No. 1 Northern, \$1.07½; to arrive, \$1.07½; No. 2 Northern, \$1.05½; to arrive, \$1.05½; No. 3 Northern, \$1.03½; No. 3 yellow corn, 64¢ to 65¢; No. 4 corn, 59¢ to 62½¢; No. 3 white oats, 49½¢ to 50¢; to arrive, 49½¢; No. 3 oats, 48½¢; barley, 90¢ to \$1.26; flax, \$2.12½; to arrive, \$2.11½.

Six Men on Oyster Craft Perish Off Maryland Coast.

GALE BRINGS ON DISASTER

Two Launches and a Dredge Become Caught in Moving Ice and Crowd on Shore Watches Vessels Drift Out to Sea Unable to Lend a Helping Hand. Five Other Launches Manage to Fight Their Way Into Clear Water.

Tilghman, Md., Feb. 5.—Six oyster men are believed to have been drowned in the Choptank river when their boats were carried into the open waters by the ice jam that began to move with the gale that swept over Tilghman Island.

The iceboat Annapolis had found no trace of the boats or men. The missing boats are the launch and dredge of the Tilghman Packing company, with a crew of three men, and the launch of Captain A. P. Mister, with three men aboard.

Five other launches managed to fight their way through the floes and made clear water. They are now anchored in the middle of the Choptank trying to ride out the gale.

The fight was watched by Tilghman islanders who stood on the wharf and shore, powerless to give assistance.

For weeks the oyster boats and launches which took refuge in Dogwood harbor off Tilghman Island, when the ice began closing the waters of the river, have lain there unable to move from their harbor. The warning sun of the last few days did its work upon the ice and the oystermen looked forward to work within a few days.

Then came the wind. Sweeping across the broad stream at the entrance to the Choptank a nasty sea began making inroads upon the ice floe. With cracking reports as an accompaniment the ice jam started to move, carrying with it the boats which had taken refuge off the little island.

Through the dark hours the crews of the vessels fought against the cakes as they broke around them. As day dawned five of the little vessels had almost miraculously worked their way through the cakes and found a temporary refuge in the clear but rough water. There they anchored and the crews were riding out the gale and polling off the threatening ice cakes as they approached.

But the vessels farthest in, those that are now missing, were caught at most in the center of the floe. With huge cakes of ice breaking about them the crews fought desperately to save their lives. At the time the vessels were lost to sight they were drifting in the teeth of the wind almost straight across the broad Choptank, headed directly for Cook's Point.

DULUTH FAVORS EASTMAN

The Duluth News-Tribune says:
It certainly should be gratifying to
the people of Duluth to have the
congressman at large from this state
hail from St. Cloud. Until the last
congressional apportionment, St.
Louis county and Stearns county were
in the same congressional district.
This was the case during the ser-
vice of C. A. Towne and of Judge
Morris. Duluth then found that St.
Cloud was a good friend and the lik-
ing has grown on acquaintance.
Both in politics and out of politics,
the City of Granite is dependable,
fair, cordial and broad in its views.
There seems no sufficient, if any,
reason that Alvah Eastman, our sister
city's candidate, should not have the
cordial support of this county. So far
he has no opposition, but the cam-
paign is still young and ambition is
not all in hiding.

If, however, a contest for this of-
fice could be avoided and Mr. East-
man be made the unanimous nominee,
the party would avoid one jangle and
would have a candidate worthy of
the office and with the qualities that
would make a useful and efficient
member.

The Virginian is the name of the
new daily newspaper just started at
Virginia in the northern part of the
state.

Haldor E. Boen, who once repre-
sented his district in congress and for
many years published a populist
newspaper in Fergus Falls, has be-
come mentally unbalanced and his
business affairs have been placed in
the hands of a guardian.

The result of the meeting of news-
paper men in the First district rep-
resenting the progressive element at
which time resolutions were passed
announcing that Congressman Sidney
Anderson was a failure as a congress-
man has resulted in bringing out a
candidate, John J. McCaughey hav-
ing filed as a republican candidate
for congress from that district. The
wise ones seem to think that Ander-
son should be given a second term
regardless of the fact that those who
were instrumental in placing him in
congress now desire to side-track him.

Congressman Steenerson's desire to
not displease the Chippewa tribe of In-
dians, into which he was adopted, in-
duced him to make an application for
a 160 acre allotment of valuable tim-
ber land on the White Earth reserva-
tion. The fact having been
brought to public attention by the
frauds claimed to have been perpe-
trated in the allotting Indian lands

the explanation is made by the con-
gressman's secretary that Mr. Steen-
erson expected to sell the valuable
timber on the tract and found a hos-
pital for the Indians with the pro-
ceeds if the government awarded him
the land, which they did not do.

The weather report reads: "Gen-
erally fair tonight and Tuesday. Not
much change in temperature."

Mrs. Webb, wife of the sign paint-
er of Crosby, passed away Sunday af-
ternoon at the Crosby hospital.

Turkish baths at Ridley's Gymna-
sium, 16117

Mrs. Thomas Beare and Mrs. N. H.
Ingersoll went to Bemidji this after-
noon for a week's visit with friends.

Miss Georgia Lucas, who has been
the guest of Mr. and Mrs. Frank G.
Hall, returned this afternoon to her
home in Minneapolis.

The mandamus proceedings brought
against the county commissioners by
R. M. Sheets will be heard February
6 by Judge W. S. McClenahan.

Rev. A. H. Utzinger, who held a
quarterly conference meeting at the
Zion Evangelical in Northeast Brainerd,
returned today to his home in
Minneapolis.

John Sydness went to Bemidji to-
day from which point he will leave
with a dog train for the Hudson Bay
country where he has been engaged to
do cruising.

William Herman had a runaway on
South Sixth street this afternoon and
was nearly killed. The team col-
lided with the porch of 615 South
Sixth street and wrecked it.

The W. C. T. U. will serve a warm
supper Tuesday evening, February 6,
at the home of Mr. and Mrs. O.
Skauge, 523 North Broadway, from
5:30 to 7:30 P. M. at a charge of 15
cents.

Rev. and Mrs. M. L. Hostager en-
tertained at a turkey dinner on Sun-
day afternoon Rev. and Mrs. Martin
Bjornson, of New Fulda, Attorney
and Mrs. Gustav Halverson and Louis
Hostager.

daughter, who have been visiting
Deputy Sheriff and Mrs. Claus Theor-
in, returned today to their home in
St. Paul. Mrs. Peglo is a sister of
Mrs. Theorin.

The young people of the Peoples
Congregational church will meet this
evening in the lecture hall at eight
o'clock when the regular monthly
business meeting will be held. All
members are asked to please attend.

On the Staples team which played
the Brainerd high school basketball
team Saturday evening were Joe
Murray, Geo. Degnan, Roy Rondorf,
Earnest Freeman, Dan Rostratter,
Howard Kirchgessner and S. T. Hel-
seth.

Commencing tonight there will be
revival meetings in the Zion Evan-
gelical church and Rev. A. Zabel will
use as his subject: "Paul's Heart's
Desire." He will preach in German
the first four nights and the rest
of the time in English, the meetings
to continue an indefinite period.

The McPhail concert, to be given
on Thursday evening, February 8, in
Elks hall under the auspices of the
Brainerd Musical club, will be a rare
treat for the music lovers. A fine
program has been prepared consisting

of violin, piano and vocal selections.
The artists giving the recital stand
at the head in Minneapolis music
circles.

Mrs. Sophia Hylen, of 814 Fifth
avenue, Northeast, passed away Febru-
ary 3 from an attack of paralysis.
She was a widow aged 68 years and
enjoyed a wide circle of acquaint-
ances. The funeral will be held
Tuesday morning at 10:15 from the
residence and at 11 o'clock from the
Swedish Mission church, the Rev.
C. W. Boquist officiating. Inter-
ment will be in Evergreen cemetery.

Duluth News-Tribune: Mrs. W.
C. Cobb, of Brainerd, Minn., will
speak on Maeterlinck at the regular
monthly social of the Twentieth
Century club on Monday evening,

Feb. 12, at the library club room.
Mrs. Cobb will be remembered by
Duluth club women for her interest-
ing talk on "Recent Impression of
Flemish Art" a year ago. This is
the third regular lecture on modern
drama which the club has arranged
for the year.

Henry I. Cohen and Mrs. C. M.
Patek left for Chicago this noon in
response to a telegram conveying the
news of the death of Chas. S. Schoen-
man which occurred in that city
Sunday from heart failure. De-
ceased was a brother of Mrs. Patek
and Mrs. Cohen, of this city, the lat-
ter being in Chicago at the time of his
death. He was well known in
Brainerd where he visited several
times, and his death is regretted
by a large circle of friends.

The Scandinavian Evangelical
union meetings will be continued this
week. Tonight there will be a meet-
ing in the Swedish Mission church.
On Tuesday and Wednesday evenings
the meetings will be held in the
Swedish Baptist church. On Thurs-
day and Friday the church services
will be held in the Swedish Metho-
dist church. The closing services
will resolve themselves into a mass
meeting at the Swedish Baptist
church on Sunday morning. Presid-
ing Elder Edwards, of the Swedish
Methodist church of Minneapolis, will
assist in the services.

A Warning Against Wet Feet

Wet and chilled feet usually affect
the mucous membrane of the nose,
throat and lungs, and la grippe,
bronchitis or pneumonia may result.
Watch carefully, particularly the
children, and for the racking stub-
born coughs give Foley's Honey and
Tar Compound. It soothes the in-
flamed membranes, and heals the
cough quickly. Take no substitute.
For sale by all druggists. mwf

Dyaks Fond of Monkey Meat.

The Dyaks of southwestern Borneo
hunt nearly all the game in the vicin-
ity of their settlements with spears ex-
cept in the case of the orang outang,
which is hunted with guns. It seems
that these wild people are very fond
of the meat of the orang outang and
consequently those animals are very
scarce in the neighborhood of Dyak
camps.

Foley Kidney Pills will cure any
case of kidney or bladder trouble not
beyond the reach of medicine. No
medicine can do more. For sale by
all druggists. mwf

The Story of a Profile.

On the facade of the Palazzo Vec-
chio, at Florence, to the right of the
central entrance, the profile of a man's
head is traced on the marble, the au-
thorship of which is ascribed to
Michelangelo. The story runs that
he and a friend made a bet as to
which of them would draw a head
best with their backs to the wall, a
bet easily won by Michelangelo, for
he traced a perfect profile, whereas
the other produced only a wavering,
imperfect outline. The story further
relates that the tool used was a nail
Both drawings are carefully preserved.

How's This

We offer One Hundred Dollars Re-
ward for any case of Catarrh that can-
not be cured by Hall's Catarrh Cure.

RUMOR SAYS THAT CANADIAN NORTHERN

Will Invade the Cuyuna Iron Range
and is Seeking Tonnage in the
New Iron Territory

WILL BUILD NEW ORE DOCK
Story is Given Credence in Duluth—
Company Already Has Good Con-
tracts on Mesaba

The Duluth News-Tribune says: Rumors are current that the Canadian Northern road will invade the Cuyuna iron range and, in this connection it is said that the road will very likely be built into the Twin Cities. The rumors, at present, are based on the fact that Davidson & McRae are interested in mineral explorations on the Cuyuna range, and that heretofore they have paid little or no attention to the search for iron ore in this state.

It is presumed that, if the Canadian Northern can get hold of the satisfactory tonnage on the Cuyuna, that it will not hesitate to build to that range. The Canadian Northern is said to have tonnage contracts on the Mesaba range, and that it is scanning the Vermillion and Cuyuna ranges carefully for possible tonnage there.

The enterprise which the road has displayed at all times gives any reasonable rumor some standing, and the one relating to the Cuyuna range is given color by the fact that the road is eager for iron ore tonnage, and contemplates the construction of an ore dock in Duluth.

St. Cloud Criticism

The St. Cloud Times says: Recently in Brainerd a man killed his brother and dumped the body in a well. He was tried for murder and acquitted. Monday evening in the N. P. depot in Brainerd, in a drunken row one man struck another and knocked him against a radiator—in the fall his neck was broken. The man who struck the blow had a hearing on Wednesday and was discharged. While he did not intend to kill, he did strike the blow which led to the other's death, and should have been punished. But, life is estimated as of small consequence in Brainerd.

First LaGrippe, then Bronchitis

That was the case with Mrs. W. S. Bailey, McCreary, Ky. "My wife was taken down with a severe attack of la grippe, which run into bronchitis. She coughed as though she had consumption and could not sleep at night. The first bottle of Foley's Honey and Tar Compound gave her so much relief that she continued using it until she was permanently cured." For sale by all druggists. mwf

BRAINERD BEATS STAPLES

Local High Wins Basket Ball Game
From Staples by 28 to 11
Score

Saturday evening the Brainerd high school basket ball team met and defeated the Staples quint by the very satisfactory score of 28 to 11. Early in the game it looked as if the score would resemble that of the famous football game with the same boys, but Staples tightened up and made the game well worth the price of admission.

The team work of the Brainerd boys is improving rapidly and was more than brilliant at times. Saturday night Trent at center succeeded regularly in getting the jump on his tall opponent, while Capt. Purdy and Happy Alderman ran rings around the Staples guards. The work of Mahlum and McGinn at the guard positions can best be judged from the fact that Staples got but one field basket. During the last half Kirk Smith went in to relieve Mahlum and acquitted himself in his usual creditable manner.

The Staples boys played a clean, snappy game but were outclassed by the superior team work of the local boys.

Before the game Coach Kalland made a little speech to the sidelines, asking that no concerted rooting be done while the game was going on and pleading for a better spirit of fair play. His remarks met with hearty approval and the popular coach was cheered to the echo when he concluded.

Next Saturday evening the Duluth Central high school team will play the local boys and this will afford the Brainerd fans a chance to see the home team clash with the best in northern Minnesota.

A large turnout is expected as such a game is worth going a long ways to see. The Brainerd boys are new at the game but are working hard and developing into a fast aggregation. It is generally believed that it takes a year or two to get basketball started but the work of the Brainerd lads leads one to think that a few more games will place them where they belong—among the best.

BRAINERD MAN'S SLOT MACHINES

Aitkin Mayor Orders Them all Out
After They Were Installed—
Gambling Feature Eliminated

The Aitkin Age says: Mayor Barker this week ordered out a number of slot machines which had been maintained in different places about town by a Brainerd man. The mayor and Village Attorney Hall investigated the machines and found that although they looked apparently harmless from the fact that they were selling chewing gum, yet they presented the gambling feature in that the player had the chance of winning from 5 cents to a dollar's worth of "chips" redeemable in gum or other merchandise.

The card sociable given at the Catholic hall on Tuesday evening was well attended, and all present enjoyed the occasion. Mrs. Geo. Ridley, of Brainerd, and Mrs. Petrarborg were tied for head score and cut for the prize, a handsome dish, Mrs. Ridley winning. W. H. Small won the gentlemen's prize, a box of cigars.

For obstructing a street crossing for a longer period than five minutes with a Northern Pacific railroad train, and thereby violating a village ordinance, a man thought to be the conductor of the train was arrested and brought before Justice of the Peace Spalding last Wednesday. Asserting in court that he was not the conductor, but merely the brakeman, he was discharged and the case dismissed.

An Epidemic of Coughing

Is sweeping over the town. Old and young alike are affected, and the strain is particularly hard on little children and on elderly people. Foley's Honey and Tar Compound is a quick, safe and reliable cure for all coughs and colds. Contains no opiates. For sale by all druggists. mwf

ORGANIZE A FARMER'S CLUB

F. H. Gruenhagen is President and
Henry Bouck is Secretary of
the Club

MEET IN CITY SAT., FEB. 10TH
To Discuss Potato Raising and To
Agree on a Variety For Early
and Late Planting

The Farmers' club has been organized with 20 farmers and business men to discuss potato culture and to agree upon a variety of early and of late potatoes to plant in the county this year, the club being formed shortly after the lecture given by C. E. Brown at the Commercial club rooms.

The farmers are mostly of Long Lake township and Mr. Gruenhagen said that no great effort had been made to get members and that the main desire was to get enough together so as to start and do something. At the meeting when the club was organized F. H. Gruenhagen was elected president and Henry Bouck was elected secretary.

The club will have a meeting in Brainerd on Saturday afternoon at 1:30 at the Commercial club rooms and all members and others wishing to join are urged to be prompt in their attendance as shortly after the convention of railway officials and state foresters will have their convention.

That these farmers' clubs are of benefit to the respective communities is evidenced by the report published in the Sunday St. Paul Pioneer Press. The Rich Valley Farmers' Club of Dakota county has 46 members and held 14 meetings during the past year. They purchased corn, twine and other things in carload lots.

The Farmers' Improvement association of Northern Beltrami county has secured a first-class registered Guernsey bull and has constructed a telephone which connects with the city lines. They are also making progress towards a more uniform production of potatoes. There are 12 families in the club.

The Hanska Farmers' club of Hanska, Brown county, which has a membership of 21 families, has formed a milk testing association, and a live stock shipping association and has begun agitation for a community laundry. It buys binding twine and fence material in car load lots.

The Manfred Farmers' club of Lac qui Parle county has a membership of 12 families and held 10 meetings during the year. It has aroused interest in many different lines such as breeding, better farming, better school conditions and public speaking.

The Bear Creek Farmers' association of St. Louis county, by uniting in club orders, has lowered the price of illuminating oil from 20 to 12 cents a gallon; dynamite from 20 to 15 cents a pound; and twine from 15 to 8 cents. It ships produce to market in car load lots. There are 18 members.

The Wrenshall County Farmers' club raises one kind of cabbage and potatoes and last year shipped 40 cars of vegetables. Two years ago they only shipped three cars.

The Pine County Farmers' club united in growing good cabbage. The year before they shipped two carloads. When fully organized they shipped 20 carloads and through their method of handling received a good margin of profit.

The Upsala Farmers' club of Morrison county last year bought a carload of seed oats and distributed it among the members with resultant good. The club started an egg selling association last year.

One of the strongest clubs is at Dassel where the farmers have a flourishing egg selling, stock shipping and feed association as well as facilities for exchanging farm products among its members.

The club at Haven, Sherburne county, secured uniformity in kind and quality of potatoes raised by buying seed. They had noticed market quotations as follows: "Potatoes,

Burbank car lots, sacked, per bush-
el, 60 cents; mixed red and white,
car lots, sacked, per bushel, 45 to
50 cents." The difference of 10 to
15 cents per bushel was easily se-
cured through this simple method of
co-operation.

DIES UNDER ANAESTHETIC

Mrs. E. W. Masson, a Prominent
Deerwood Matron, Passed Away
at a Brainerd Hospital

Mrs. E. W. Masson, aged about 34 years, the wife of the Northern Pacific railway station agent at Deerwood, passed away Saturday while under the influence of an anaesthetic as an operation was being performed at a local hospital. She was a woman socially prominent in Deerwood and her demise is a source of great sorrow to the community where she lived.

She leaves surviving a husband, a daughter Dorothy aged about 14 and a son Felix aged about nine years. The body was transferred to Deerwood Saturday where the funeral will be held.

Liabilities, 5 per cent water works bonds, \$57,500.00.

ELECTRIC LIGHT DEPT.

History of the electric light department:

At the time when the manage-
ment of the electric light depart-
ment was turned over to the water
and light board, the city owned the
building and electric machinery lo-
cated near the Mississippi river, be-
low the dam, near the northeast city
limits. Water power was furnished
by the Northland Power Company,
for which a monthly rental of \$300
was paid.

The plant was in a dilapidated condition, often necessitating shutting down several days at a time for repairs, in fact, service was very unsatisfactory. Notwithstanding the

above, the plant was a financial success while in the hands of the water and light board.

On April 23, 1910, the plant was completely destroyed by fire. \$3,500 insurance was carried on building and machinery, which was all the insurance that could be placed on the property.

The board made arrangements with the Northern Pacific railway company to get electric current from their shops in this city and connections were made within four days after the municipal plant was destroyed. The rate paid was 5 cents per kilowatt hour delivered at switchboard at their station.

On November 12, 1910 the city council entered into a contract with the Toltz Engineering Co. of St. Paul, to furnish electric current to the city of Brainerd for a term of ten years at a rate of .02125 cents per kilowatt hour delivered at the station.

RATES.

The rate charged electric light consumers while the city owned their plant was .07 and ½ cents per kilowatt hour, less 10, 15, 20 and 25 per cent discounts according to amount of electric current consumed. A minimum rate of 75 cents was charged per month.

After the municipal plant was destroyed by fire and during the time the electric current was purchased from the Northern Pacific railway

company the rate to consumers was increased to 10 cents per kilowatt hour and the minimum charge increased to one dollar per month. On June 20 and after the Toltz Engineering company's plant was in operation, the board again reduced the rate to 6½ cents per kilowatt hour, no discount being allowed, instead a penalty of 10 per cent is added if not paid promptly.

On December 6, 1911, the minimum rate was fixed at 75 cents per month, effective January 1, 1912.

The Sound Sleep of Good Health is not for those suffering from kidney ailments and irregularities. The prompt use of Foley Kidney Pills will dispel backache and rheumatism, heal and strengthen sore, weak and ailing kidneys, restore normal action, and with it health and strength.

Mrs. M. F. Spalsbury, Sterling, Ill., says: "I suffered great pain in my back and kidneys, could not sleep at night, and could not raise my hands over my head. But two bottles of Foley Kidney Pills cured me." For sale by all druggists. mwf

Blind Senator to Have an Extra Clerk. Because of the affliction which deprives him of his sight Senator Thomas P. Gore of Oklahoma is to have an additional clerk. The committee on control of the contingent expenses of the senate voted unanimously to report a resolution which by name gives the senator from Oklahoma an extra clerk at a salary of \$1,200 a year.

TRICKY ELEPHANTS.

The Cunning They Displayed in Procuring a Stolen Meal.

Singular as it may seem, elephants which have associated with men entertain the notion that, under special circumstances, they are not responsible if they utilize another to commit an illegal act. The following is an instance of this elephantine morality.

A man in Rangoon bought three young elephants to send to England. They were tame and playful, but cunning. Knowing that it was wrong to steal paddy (unhusked rice)—the idea had doubtless been impressed upon them by punishment for stealing—but if a boy went to see them he would be seized by one, the little trunk would be coiled around his arm, and he would be led to where the paddy was kept in bags.

The elephant would make a cat's paw of the boy's hand to take up a handful of paddy. Then, letting go, he would turn up the end of his trunk, open it and coaxingly invite the boy to drop in the paddy.

Should the boy, however, put it back in the bag his arm would again be seized by the trunk, and his hand would be again inserted into the paddy bag.

The boy, anxious to be released, would usually drop the paddy into the trunk, and the elephant would blow the rice into his mouth. After repeating the operation several times the elephant would scamper off, feeling that he had got the paddy without stealing it.—Harper's.

Forests of Africa.

One of the great natural treasures of Africa is the immense extra tropical forest that extends almost unbroken from the extreme southern end along the eastern highlands to the equator. There are gaps in it, and the trees change in kind somewhat with change of latitude, but upon the whole it has the same character throughout. The altitude above the sea changes regularly with decrease of latitude. Near the cape the forest grows at sea level; in Natal and the Transvaal its altitude increases to 3,000, 4,000 and 5,000 feet, and on approaching the equator it rises to 7,000 feet and finally to 10,000 feet. In the equatorial highlands the growth is very vigorous, and the forest is enriched with the pencil cedar of Abyssinia.—Youth's Companion.

THEY INJURE CHILDREN.

Cathartics and Pills and Harsh Physics May Cause Distressing Complaints.

You cannot be over-careful in the selection of medicine for children. Only the very gentlest bowel medicine should ever be given. Ordinary pills, cathartics, and purgatives are too apt to do more harm than good. They sometimes cause griping, nausea, and distressing after-effects, and may actually injure the health, thus establishing a life-lasting annoyance.

We personally recommend and guarantee Rexall Orderlies as a safe and dependable remedy for constipation and associate bowel disorders. We have such faith in the virtues of this remedy that we sell it on our guarantee of money back in every instance where it fails to give entire satisfaction, and we urge all in need of such medicine to try it at our risk.

Rexall Orderlies are eaten just like candy, are particularly prompt and agreeable in action, may be taken at any time, day or night; do not cause diarrhoea, nausea, griping, excessive looseness, or other undesirable effects. They have a very mild but positive action upon the organs with which they come in contact, apparently acting as a regulative tonic upon the relaxed muscular coat of the bowel, thus overcoming weakness, and aiding to restore the bowels to more vigorous and healthy activity.

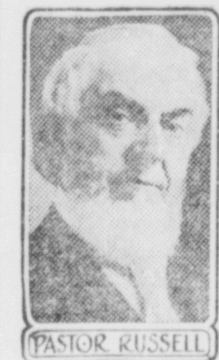

Rexall Orderlies not only relieve constipation, but help to remove the cause of this ailment. They also frequently overcome the necessity of constantly taking laxatives to keep the bowels in normal condition.

There is really, in our opinion, no similar medicine so good as Rexall Orderlies for the purpose to which it is directed, especially for children, aged and delicate persons. They are prepared in tablet form and in two sizes of packages: 12 tablets, 10c, 30 tablets, 25c, and 80 tablets, 50c. Remember, you can obtain Rexall Remedies in this community only at our store—The Rexall Store Johnson's Pharmacy

PASTOR RUSSELL TOURING INDIA.

Preaching Daily to Many of the Heathens.

Foreign Missions Investigation Committee, of Which the Pastor Is Chairman, Visit Travancore District, Where They Spend a Week Prosecuting Their Work.

PASTOR RUSSELL

Travancore, India, Feb. 4.—The Foreign Missions Committee of the International Bible Students Association has reached here. Pastor Russell, Chairman of the Committee, is widely known in this District. His coming has been a topic of interest for several weeks. Not only are Christian natives alert to meet him, but their heathen countrymen are also interested. Mohammedans have been inquiring. Has Pastor Russell any special message for us? The arrangement is that the Pastor shall spend a full week in this District and be at Madras next Sunday. In his address the Pastor said: I have chosen as my text on this occasion the Message of the angels at the birth of our Redeemer—"Fear not! Behold, we bring you good tidings of great joy, which shall be unto all people." (Luke II, 10.) I feel that I am not entirely a stranger to many of you, nor you to me. For a considerable time I have seen regular reports sent in from this District to the International Bible Students Assn., of which I have the honor of being President.

These reports in turn are published to the Bible Students all over the world. We want you to know of the Christian love of these children of God of various nationalities who are represented by the Committee before you.

The Father of Mercies.

Two days ago, on the Island of Ceylon, my attention was drawn to the tomb of the good Bishop Heber. Immediately to my mind came his words:

What though the spicy breezes
Blow soft o'er Ceylon's Isle,
And every prospect pleases,
And only man is vile!

From childhood I had sung those words, and finally found myself on Ceylon's Isle. But I am not so sure but that the dear Bishop exaggerated a little the villainess of the human types of this vicinity. Poverty, indeed, I see on every hand, and, if villainess be measured by our great Creator by lack of wealth, then certainly you are vile in comparison to some more wealthy. But can we really believe that this is the Divine standard? Shall we not rather believe the words of Jehovah, "Man looketh upon the outward appearance, but God looketh upon the heart?"

I am not here to flatter you—to say that poverty is a proof of purity of heart. On the contrary, it is my duty as a minister of Christ to declare that there is none righteous, no, not one. But I may say to you that, admitting that all men have sinned—some in ways more peculiar to one nationality and some to another—it is ours to point out the need of an Atonement for sin and the fact that "the blood," sacrifice, "of Jesus Christ our Lord, cleanseth us from all sin."—Neither is there salvation in any other.

Now Look at Our Text.

Note its terms of a blessing intended of God for every creature. Two thousand years before the angels uttered those words God gave the same Message of hope and joy to Father Abraham. Let those of this audience who are Mohammedans, as well as others, call to mind the promise to which I refer. It was the promise with the oath. God, foreknowing that the fulfillment of the promise would be long delayed, made oath to it, so that all who trust in Him might have the consolation of that promise. And what is the promise? God said to Abraham, "In thy Seed shall all the families of the earth be blessed."

The Divine Purpose looked down to Messiah and saw in Him the real Seed of Abraham through whom eventually Divine Power will be exercised and Divine Grace be shed abroad amongst men. However, according to the Scriptures, the Messiah, the Deliverer, is composite—composed of numerous members. Each one of these members must be tested and proven in respect to his loyalty to God and to the principles of righteousness before he can attain to his glorious reward of the divine nature.

But mark you well—the selection of this special class does not involve the "non-elect" in eternal torment nor in any eternal disaster. On the contrary, the gathering of the "elect" should be regarded as an assurance on God's part of the fulfillment of His larger promise, that through these saintly ones, great blessings are to be showered upon Abraham's natural seed, yea, and upon all the families of the earth.

The blessing of the world will be Restitution. (Acts III, 21.) If, as the Evolutionists tell us, the Bible theory that man was created in God's image is wrong and he is really the offspring of an ape, then Restitution would be the worst thing that could possibly come to mankind. But the Bible is quite right; namely, that man was created perfect and upright—in the image and likeness of God, and that restitution will be the world's blessing.

A Fool's Paradise.

A world in which there were no labors to be accomplished, no burdens to be borne, no storms to be endured, would be a world without true joy, honest pleasure or noble aspiration. It would be a fool's paradise.

The Egoist.

Young Hostess (giving her first dance to her sisters)—Girls, I'm so anxious you think I shall enjoy myself? I hope I shall.—London Punch.

DEATH OF A HEROINE WHO SAVED 200 LIVES.

Kate Skelly Crawled Over Trestle in Terrific Storm to Warn Train.

Kate Skelly, to whose courage and self possession 200 train passengers owed their lives twenty years ago, died recently at Boone, Ia.

When Miss Skelly was sixteen years old her father was a section foreman employed by the Chicago and Northwestern railroad. Heavy rains on the evening of July 6, 1891, caused the Des Moines river to rise, and the rush of the water was so terrific that eleven out of twenty-one of the railroad bridges and trestles were swept away.

Miss Skelly was arguing with her mother for permission to go out in search of her father when they heard a crash. Looking out, they saw that a helper engine had fallen through a trestle close to their home and was buried in the bayou beneath.

Grasping a lantern, the girl ran to the scene of the accident. Two of the crew of four men on the engine had been drowned. The others were badly hurt.

The girl made her way up a bluff and started for Moingona, four miles away. She knew a passenger train was due. The wind extinguished her lantern before she reached the trestle, half a mile long, over which in the darkness she was compelled to creep.

Reaching the station at Moingona just as the passenger train arrived there, she gave the warning, then collapsed. When she recovered she led a band of rescuers back over the perilous route she had just traversed, saved the two injured trainmen and was carried home to her mother.

Subsequently the legislature voted her a fund of \$5,000.

PENSIONS FOR SERVICE.

General Torrance Insists That Rewards Should Be Based on That Alone.

General Eli Torrance of Minneapolis, chairman of the legislative committee of the G. A. R., told the pension committee of the senate that the Grand Army favored a pension bill based on both age and service, carrying about \$30,000,000 annually. Representative Isaac Sherwood of Ohio, author of the service pension bill bearing his name that recently passed the house, said that he was not wedded to that particular bill, but he insisted that service alone should be the basis of reward.

The plan advocated by General Torrance for the Grand Army is covered by a proposition originally suggested by Senator McCumber, chairman of the senate committee on pensions. It proposes that pensions for veterans sixty-two years of age shall vary from \$12 a month for ninety days' service to \$21 a month for three years' service; that sixty-six-year-old veterans shall have \$15 a month for ninety days' and \$24 a month for three years' service; that seventy-year-old veterans shall receive \$18 for ninety days' service and \$27 for three years' service; that veterans seventy-five years old shall receive \$21 a month for ninety days' service and \$30 for three years' service. It is estimated that under this scheme there would be 387,957 pensioners, receiving in the aggregate \$30,984,420.

EMBASSY BUILDINGS ABROAD

Mr. Knox Says They Cannot Be Built For \$150,000, the Limit Fixed.

Secretary of State Knox reported to congress that it would be impossible for the United States to purchase or build embassies and legations in the principal capitals of the old world within the limit of \$150,000 for each structure, which is fixed by the bill passed at the last session of the Sixty-first congress. This measure authorizes the expenditure of \$500,000 a year, but declares that no building shall cost more than \$150,000.

Secretary Knox recommends the purchase or construction of buildings for the embassies at Mexico City and Tokyo to cost \$150,000 each, the construction of a legation building at Bern, Switzerland, at a cost of \$140,000 and the expenditure of \$90,000 for a building for the consul general at Hankow, China. The United States already owns a piece of ground at Tokyo upon which it is proposed to construct the embassy headquarters.

Secretary Knox says his conclusion that the United States will not be able to acquire suitable buildings within the \$150,000 limit at foreign capitals is based on a general inquiry made under his direction.

SOLDIERS MAY GO TO JAPAN.

But in Baseball Uniforms to Play With a Tokyo Team.

The war department has under consideration a request from Major General Bell, commanding the division of the Philippines, that he be allowed to send an army baseball team to Tokyo to play a series of games there with a Japanese team.

The Japanese team has already arranged to go to Manila to play the American soldiers, and General Bell desires to establish reciprocity in athletic relations.

Dismal Outlook.

"Why do you look so unhappy?" "Well, you know I'm pretty well busted."

"Yes, but you always were, and yet you've borne up pretty well. What is the particular trouble today?" "I just proposed to the girl I love."

"Ah! And the answer was unfavorable?"

"I don't know."

"You don't know? Why, what do you mean? Surely you must know whether she accepted you or rejected you."

"That's just it. I asked her to marry me, and she said she would. Then I asked her if she was sure she could be happy with a man who had no money, and she said she could. She said she had always preferred buying things on credit anyhow."—Cleveland Plain Dealer.

IMPROVEMENT WITHIN TWENTY-FOUR HOURS

"At five months our baby weighed thirteen pounds, while at eight months she weighed only twelve. We fed condensed milk and different kinds of foods and still the child got worse. One doctor said she could not be helped; two others gave me very little encouragement. At last I procured a bottle of Mellin's Food and fed it to her according to directions. She showed an improvement within twenty-four hours after the first feeding and has not been sick a day since. In the three months I have used Mellin's Food the baby has gained six pounds."

Mrs. Fred Bates, Forest City, Pa.

MELLIN'S FOOD CO. - BOSTON, MASS.

Married Young to Beat Smallpox.

When I was a lad the number of people whose faces were pitted with smallpox was legion. "Blind from smallpox" was on the card worn by most of the unfortunate street beggars who had lost their sight.

The anxiety of parents to have their daughters married at an age which would now be considered almost scandalously immature was one by-product of the frequency and severity of smallpox. If a girl's face were marred by prospects of matrimony were, of course, impaired, and the ambition of mothers—so common was smallpox—was to see their daughters safely married before they caught the disease.—From Walter Gilbey's "Recollections of Seventy Years" in Nineteenth Century.

What Life Is.

Nothing is of real value in the world except people. Never hurt a person by a wrong thought or by word or by act. Never hurt each other. Then go on a big discovering expedition and find each other. Never say, "That person has nothing in him," for that only means that you haven't found it yet. Then, last of all, never think you are the only person. You are just a part of "each other." You are not somebody and the rest of us everybody else. We are each other. Life is each-ness, not everybody-ness.—St. Nicholas.

Not Acquainted.

"Are you at all familiar with Plato?" asked Mrs. Oldcastle.

"No; that's one thing Josiah always blames me for. He says I never make real friends with anybody."

Our Art Schools.

Over \$11,500,000 is spent annually in the United States for education in art.

At Bane's

Some bargains that out of town people have told me to sacrifice and sell:

Eighty acres in Sec. 1, St. Mathias ----- \$600.00

Fine house and barn, three lots, corner Fir and Broadway ----- \$1600.00

Forty three acre vegetable and chicken farm, buildings and fruit trees.

One hundred and fifty acre lake shore property, 1/2 mile lake shore, one mile from station.

Lake shore lots on Cullen, Clearwater and other beautiful lakes.

Lots in BARROWS will double this summer. The Barrows mine will be taking out ore in a few months.

I can sell your house or farm if the price is reasonable.

List it now—No sale, no cost to you.
